- On receiving the evaluation data (**April 24<sup>th</sup>, 2006**), the registered site will process the entire test set in accordance with the SRE-06 evaluation plan, and return the system output files to NIST by the end of the evaluation period (**May 14<sup>th</sup>, 2006**).
- The site agrees to be represented at the Speaker Recognition Evaluation workshop to be held in San Juan, Puerto Rico during **June 25<sup>th</sup> – 27<sup>th</sup>, 2006** and to openly discuss its evaluation system(s) and results.
- The site understands that, although the evaluation is open to all wishing to participate, results are only discussed within the group of registered participants and representatives of supporting government agencies, that the workshop is open only to representatives of the registered participants and supporting government agencies, and that distribution of the workshop materials is limited to the attendees of the workshop.
- The evaluation data is protected and cannot be redistributed.
- The site agrees to not publicly compare its results with the results of other participants. Sites are free to do what they wish with their own results, but may neither redistribute nor publish results from another site without that site's explicit permission.

NIST serves to coordinate the Speaker Recognition evaluations. These tests are designed for local implementation by each participant. Only their results are returned to NIST for scoring. The reported results are not to be construed, or represented, as endorsement of any participant's system, or as official findings on the part of NIST or the U.S. Government.
